CAREER OBJECTIVES

I am a passionate web developer with a strong foundation in building applications using modern technologies like Next.js and TypeScript. Having explored various frameworks, I've found React's component-driven architecture to be my focus, and I'm excited to continue developing full-stack applications. I am eager to work in a dynamic, growth-oriented company where I can collaborate with a team, quickly learn new skills, and contribute to innovative projects while making a tangible impact.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python, Java, C++, SQL
- **Frontend Development:** HTML, CSS, React.js, Tailwind CSS, Bootstrap, Framer Motion
- **Backend Development:** Node.js, Express.js, Hono.js, Prisma, Drizzle
- **Databases:** MySQL, PostgreSQL, MongoDB, Firebase, Supabase, Convex,
- **Tools & Version Control:** Git, GitHub, VS Code, IntelliJ IDEA, PyCharm
- **Mobile Development:** React Native, Flutter
- **Microsoft Office:** Word, Excel, Powerpoint

PERSONAL SKILLS

- Adaptable to new technologies and environments.
- Collaborative team player.
- Excellent time management and prioritization.
- Quick learner and self-motivated.
- Strong organizational skills.
- Open to feedback and continuous improvement.
- Strong work ethic and dedication.

LANGUAGES

English: Fluent
Filipino: Native

EDUCATION

University of Caloocan City – Congressional Campus
Bachelor of Science in Information Technology
Thesis: Altrubox: An IOT integrated relief box

Caloocan City, Philippines
January 2021-April 2025

EXPERIENCE

Digital Benefits Pte. Ltd.
Multimedia & Web Development Intern

Makati City, Philippines
August-September 2024

- Conducted extensive bug testing and QA on a cryptocurrency platform's web application to ensure stability, usability, and performance.
- Assisted in beta testing of a crypto-based game, identifying UI/UX issues and reporting bugs for iterative improvements.
- Collaborated with developers and designers to refine user interactions and implement feedback-driven design enhancements.
- Contributed to front-end improvements by analyzing user experience data and suggesting optimizations for responsiveness and accessibility.
- Supported digital product development through asset integration and functional testing across multiple browsers and devices.

- Mentored 3rd-year IT students in planning and developing their capstone system projects.
- Provided guidance on system design, architecture, and implementation.
- Assisted in debugging and improving code for better performance and maintainability.
- Shared best practices in full-stack development and project management.
- Advised on effective project documentation and presentation strategies.

PROJECTS

Teezy (Personal Portfolio Website) | [Github](#) / [Demo](#) *Project & Development Lead*

- Designed and developed a personal portfolio website using Next.js and Tailwind CSS, showcasing projects, skills, and accomplishments with a clean, modern UI/UX focused on easy navigation and accessibility.
- Implemented a responsive design optimized for desktop and mobile devices, featuring smooth scrolling, hover effects, and a dynamic project gallery for an engaging user experience.
- Integrated the GitHub API to display real-time project contributions and repositories, offering visitors live access to current work.
- Optimized performance through image compression, code splitting, and minimal bundle sizes to ensure fast load times and smooth interaction.
- Configured continuous deployment via Vercel, enabling automatic updates directly from GitHub repositories for a streamlined development workflow.

AWARDS / ACHIEVEMENTS

- Participant | AppCon 2025 “Hackathon” (April 2025)
- Top 7 Finalist | AppCon 2025 “Hackathon” (April 2025)
- Exhibitor | ITechativity Thesis Exhibit 2025
- “3rd Place Best Thesis” | ITechativity Thesis Exhibit 2025
- “3rd Place Most Creative” | ITechativity Thesis Exhibit 2025
- “3rd Place Best Video Presentation” | ITechativity Thesis Exhibit 2025

CERTIFICATIONS

Software Engineer (CertID: 204ca4aa7e2c) *Technical Skills Certification* *HackerRank* *June 2025*

- Assessed on core software engineering skills, including problem-solving, algorithms, and programming fundamentals.

Frontend Developer (React) (CertID: 550b22bb0772) *Technical Skills Certification* *HackerRank* *June 2025*

- Demonstrated proficiency in building interactive user interfaces using React, including components, hooks, and state management.

Problem Solving (Intermediate) (CertID: aabf5fcb105e) *Technical Skills Certification* *HackerRank* *June 2025*

- Assessed on intermediate-level problem-solving skills, including algorithms, data structures, and complexity analysis.

JavaScript (Intermediate) (CertID: e7f36785eea8) *Technical Skills Certification* *HackerRank* *June 2025*

- Demonstrated intermediate proficiency in JavaScript, including closures, asynchronous programming, and object-oriented concepts.
